

# HELPING HAND

Date: 02-02-2019

Guide: Ankitha Philip

## 1. Project Overview?

*Helping hand is an online charity management system where the donors, beneficiaries and volunteers can use the service of the system to raise funds, find the needy people and donate to whom are really in need. Helping hand is a non-profitable organization. The donation can be made to a single person or to a charitable organization like orphanage, old age homes etc., after a thorough verification by the volunteers of Helping Hand. There are basically three types of users. They are admin, volunteers and beneficiaries.*

## 2. To what extent the system is proposed for?

*This system provides good and efficient information and thus making the service smarter. It is an interface for users to browse the beneficiaries and donations and he can donate amount or used items to the beneficiaries. It provides an end to end solution manage donation and fund raising programs.*
