HELPING HAND – Charity

Table Design

1. Tbl_login

   Primary Key: login_id

   Foreign Key: Email from tbl_registration

Field Name	Datatype	Description
login_id	int	Unique id for login details
Email	varchar	FK(from Registraion)
Password	varchar	password
Type	int	type of the user
status	int	current status

2. Tbl_steetpeople

   Primary Key : sp_id

   Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
sp_id	int	unique identifier (pk)
Email	varchar	FK(from Registraion)
place	varchar	place of the person
state	varchar	state of the place
district	varchar	district of the place
pincode	int	pincode of the place
image	varchar	image of that person
details	varchar	details of the person
status	int	current status

3. Tbl_ben_needs

   Primary Key : Request_id

   Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
Request_id	int	unique value for request
Email	varchar	FK(from Registraion)
Request	varchar	what they want
quatity	int	how much they want
time	varchar	within days
status	int	current status

4. Tbl_ben_account

Primary Key : Acc_id

Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
Acc_id	int	unique value for the accountdetails
Email	varchar	FK(from Registraion)
name	varchar	name of the account holder
bank_name	varchar	name of the bank
branch_name	varchar	name of the branch
ifsc_code	varchar	ifsc code of the bank

5. Tbl_notification

Primary Key : noti_id

Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
noti_id	int	unique value for the notification
Email	varchar	FK(from Registraion)
Rece_ID	varchar	receiver id
notification	varchar	notification details
status	int	current status

6. Tbl_donation

Primary Key : donation_id

Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
donation_id	int	unique value for the donation details
Email	varchar	FK(from Registraion)
item_type	varchar	item type
to_whom	varchar	beneficiary details
purpose	varchar	purpose for the donation
amount	varchar	donation amount
item	varchar	item name

quatity	varchar	no.of items
place	varchar	collection place
status	varchar	current status
pick_status	int	1 if items is collected

7. Tbl_volunteer_task

Primary Key : volT_id

Foreign Key: Email from Tbl_registration

: donation_id from Tbl_donation

Field Name	Datatype	Description
volT_id	int	volunteer task id
Email	varchar	FK(from Registraion)
donation_id	int	FK(from donation)
pick_status	int	1 if it is picked
drop_status	int	1 if it is droped

8. Tbl_registration

Primary Key : email

Field Name	Datatype	Description
email	varchar	unique registration id
role	varchar	type of the user
username	varchar	user name of the user
password	varchar	password for the user
fname	varchar	first name of the user
lname	varchar	last name of the user
dob	date	date of birth of the user
current_addr	varchar	current address
perm_addr	varchar	permanent address
District	varchar	district
state	varchar	state of the person
pincode	int	pin code of the person
phone	varchar	phone number
landline	varchar	land line number
adhaar_no	varchar	adhaar of the person
photo	varchar	photo of the person
adhaar_copy	varchar	adhaar copy should be uploaded
designation	varchar	desgination of the user
status	varchar	current status

9. Tbl_Reg_volunteer

   Primary Key : Vol_id

   Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
Vol_id	int	unique identifier
email	varchar	pointer to registration
course	varchar	user education
college_name	varchar	college name of the user
clg_district	varchar	college district
clg_state	varchar	college state
clg_pin	varchar	collge pin code
admission_no	varchar	college admission number
emp_name	varchar	employer name
designation	varchar	designation of user
wrk_state	varchar	state
wrk_dist	varchar	work district
empid	varchar	employee id

10. Tbl_Reg_Bendetail

   Primary Key : Ben_id

   Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
Ben_id	int	unique identifier
email	varchar	pointer to registration
no_of_persons	int	no of persons in that organization
incharge	varchar	person incharge
owner_name	varchar	name of the owner
website	varchar	site address
certificate	varchar	certificate
certificate1	varchar	certificate

11. Tbl_add_benmember

   Primary Key : mem_id

   Foreign Key: Email from Tbl_registration

Field Name	Datatype	Description
mem_id	int	unique value for members
Email	varchar	FK(from Registraion)
name	varchar	name of the member
age	int	age of the member
class	varchar	education of the member
dob	date	date of birth
adhaar_no	varchar	adhaar number of the member
school	varchar	name of the school
photo	varchar	photo of the member
adhaar_copy	varchar	file
expense	varchar	yearly expense
sponserd	int	varchar
spo_name	varchar	name of the sponser

12. Tbl_scholar_application

    Primary Key : school_app_id

    Foreign Key: Email from Tbl_registration

              : Schem_id from Tbl_scholor_details

              : mem_id from Tbl_benmemb

Field Name	Datatype	Description
schol_app_id	int	unique value for scholarship application
Email	varchar	FK(from Registraion)
Schem_id	int	FK(scholarship scheme)
mem_id	int	FK(tbl_benmemb)
certificate	varchar	certificate for application
certificate2	varchar	certificate for the application
status	int	current status

13. Tbl_scholor_details

    Primary Key : Schem_id

Field Name	Datatype	Description
Schem_id	int	unique value for schemes
description	varchar	description
persons	int	number of persons

amount	varchar	total amount
status	int	current status

14.Tbl_Items

Primary Key : Item_id

Field Name	Datatype	Description
Item_id	int	unique identifier
item_name	varchar	name of item
quatity	int	no. of items

15. Tbl_store

Primary Key : SI_id

Foreign Key : Item_id from Tbl_tems

         : Email from Tbl_Registration

Field Name	Datatype	Description
SI_id	int	unique value for items in store
Email	varchar	FK(from Registraion)
item_id	int	FK(pointer to item list)
benid	varchar	beneficiary details
date	date	donation date
quantity	int	no. of items
